Curriculum Vitae

Dr. Felix Frey

Summary statement
I am a theoretical physicist by training and I work primarily in the area of biophysics and soft matter. Complementary to having been trained in continuum modeling, I am making a transition to particle-based mesoscale computer simulations in my current postdoc which allows me to bridge scales. In my work, I study self-assembly and remodeling processes at biomembranes to develop a system-level understanding of living systems.

Academic positions

2022 – present	Independent NOMIS fellow at the Institute of Science and Technology Austria (ISTA), with Anđela Šarić and Martin Loose
2020 – 2022	Postdoc at the Department of Bionanoscience, Kavli Institute of Nanoscience, Delft University of Technology (TU Delft), in the group of Timon Idema
2019 – 2020	Postdoc at the Institute for Theoretical Physics, Heidelberg University, in the group of Ulrich Schwarz
2015 – 2019	PhD researcher at the Institute for Theoretical Physics, Heidelberg University, in the group of Ulrich Schwarz

Education

06/2019	PhD at the Institute for Theoretical Physics, Heidelberg University Thesis title: *Physical models for uptake processes at the cell membrane* (summa cum laude) Advisor: Ulrich Schwarz
07/2015	Master of Science in Physics at Heidelberg University
07/2012	Bachelor of Science in Physics at Heidelberg University
06/2009	Abitur (A-level) at the Ludwig-Uhland-Gymnasium in Kirchheim unter Teck

Fellowships and awards

2022	Independent NOMIS fellowship (fully funded independent 3-year Postdoc position, worth 242.000€)
2022	IST-BRIDGE fellowship (fully funded independent 2-year Postdoc position), funded from the European Union's Horizon 2020 research and innovation program under the Marie Skłodowska-Curie grant agreement No 101034413 (declined)
2021	Kavli Synergy Grant (worth 50.000€)
2020	Among the six best dissertations at the Heidelberger Wilhelm-und-Else Heraeus dissertation prize for physics and astronomy
2018	Travel grant for the Biophysical Society Annual Meeting in San Francisco funded through the Excellence Initiative at Heidelberg University
2015	Full 3-year PhD fellowship of the Heidelberg Graduate School for Physics (HGSFP)
2009	School award of the German Physical Society (DPG)

Talks and posters at international conferences and seminars

2023	Invitation for a talk at the symposium *Septins: biology meets physics* at *TU Delft,* Delft
2023	Selected abstract for a poster at the *ISMC 2023| 7th International Soft Matter Conference*, Osaka
2023	Invitation for a talk at the *DGZ Focus Workshop: Workgroup Membrane Trafficking and Molecular Motors (online)*
2023	Invitation for a talk at the symposium *Theoretical Physics - Theory of Condensed Matter* at Johannes Gutenberg University Mainz, *Mainz*
2023	Invitation for a seminar talk at the *Max-Planck-Institute of Biophysics,* Frankfurt am Main
2023	Selected abstract for a talk at the *EMBO | EMBL Symposium Life at the periphery: mechanobiology of the cell surface*, Heidelberg
2023	Selected abstract for a talk at the *DPG Spring Meeting*, Dresden
2022	Poster at *The Vienna Soft Matter Day*, IST Austria, Klosterneuburg
2022	Talk at *Soft Hour seminar series*, IST Austria, Klosterneuburg
2022	Selected abstract for a talk at the *DPG Spring Meeting*, Regensburg
2022	Contributed flash talk at *Dutch Soft Matter Meeting*, Delft
2022	Selected abstract for a talk at *SynCell2022*, The Hague
2022	Invitation for a talk at the *Statistical Physics and low dimensional systems conference*, Pont-à-Mousson
2022	Selected abstract for a poster at the *Biophysical Society Annual Meeting*, San Francisco
2022	Talk at the *BN Forum*, seminar of the Department of Bionanoscience, TU Delft (online)
2022	Selected abstract for a poster at *NWO Physics@Veldhoven* (online)
2021	Selected abstracts for a talk and a poster at *Dutch Biophysics* (online)
2021	Selected abstract for a poster at *EMBO Workshop Molecular and Cell Biology of Septins*, Berlin
2021	Selected abstract for a poster at *EMBO Workshop Physics of living systems: From molecules to tissues* (online)
2021	Selected abstract for a poster at the *BaSyC (Building a Synthetic Cell) Spring Meeting* (online)
2021	Selected abstract for a poster at the *DPG Spring Meeting* (online)
2019	Selected abstracts for two talks at the *DPG Spring Meeting*, Regensburg
2018	Selected abstract for a poster at the *Venice Meeting on Fluctuations in Small Complex Systems IV*, Venice
2018	Talk at *BioQuant Internal Seminar*, Heidelberg University
2018	Selected abstract for a poster and flash talk at the *BDBDB4 Meeting*, Heidelberg
2018	Selected abstract for a talk at the *DPG Spring Meeting*, Berlin
2018	Selected abstract for a poster at the *Biophysical Society Annual Meeting*, San Francisco
2017	Selected abstract for a poster at the *DPG Spring Meeting*, Dresden

Teaching experience and supervision

2019, winter	Exercises in Electrodynamics (Bachelor course) at Heidelberg University
2019, summer	Lecture substitution (one lecture) at Heidelberg University in Theoretical Biophysics (Master course) for Prof. Ulrich Schwarz
2016, winter	Exercises in Stochastic Dynamics (Master course) at Heidelberg University
2016, winter	Exercises in Non-linear Dynamics (Master course) at Heidelberg University
2016, summer	Exercises in Theoretical Biophysics (Master course) at Heidelberg University
2015, winter	Exercises in Theoretical Statistical Physics (Master course) at Heidelberg University

2022 Co-supervision of two Bachelor End Projects at TU Delft
2018 Co-supervision of one Master thesis at Heidelberg University
2016-2018 Co-supervision of three Bachelor theses at Heidelberg University

Reviewing activities
Physical Review Letters (APS), PRX Life (APS), Physical Review E (APS), The Journal of Applied Physics, The Journal of Chemical Physics, The Proceedings of the National Academy of Sciences (PNAS), eLife, Biology of the Cell, Nature Cell Biology

Administration and organization
2022 Organization of the theory journal club of the Department of Bionanoscience at TU Delft
2022 Co-organization of the scientific retreat for the theory division of the Department of Bionanoscience at TU Delft involving the groups of three principal investigators
2021 Participation at the EMBO Lab Leadership course for postdocs (online)

Publications
In preparation:
18. **F. Frey**, M. Amaral, A. Šarić, *Curvature-dependent enrichment of bilayer and bolalipids in torus-shaped membrane vesicles*, ***in preparation*** (2023).
